V. 50 pt. 1

AMERICAN MACHINIST

INDEX TO VOLUME L

January 1 to June 30, 1919

EXPLANATORY NOTE

Illustrated articles are marked with an asterisk (*), book notices with a dagger (†), and new shop equipment as described in the departments "Shop Equipment News" and "Condensed Clipping Index of Equipment" with a double dagger (‡). Book reviews are listed under the heading "New Publications." Cross references to a particular initial word may apply also to its derivatives. The cross references condense the matter and assist the reader, but are not to be regarded as complete or conclusive. So, if there were a reference from "Milling" to "Jigs and Fixtures," and if the searcher failed to find the required article under the latter topic, he should look through the "Milling" entries, or others that the subject might suggest, as he would have done had there been no cross reference. The plural of any given item may not necessarily follow the singular immediately, as the items are listed in alphabetical order. All articles written by any given author are listed directly under his name in the special author's index which starts on page 21. Articles that are not credited to any author may be found under the heading "No author credited," listed under "N" in the Author's Index.

Following is a list of the pages included in the several numbers of the volume, by date and number:

Jan.	2	Number	1	Pages 1-46
"	9	"	2	" 47-92
"	16	"	3	" 93-140
"	23	"	4	" 141-188
"	30	"	5	" 189-234
Feb.	6	"	6	" 235-282
"	13	"	7	" 283-328
"	20	"	8	" 329-376
"	27	"	9	" 377-424
Mar.	6	"	10	" 425-474
"	13	"	11	" 475-524
"	20	"	12	" 525-574
"	27	"	13	" 575-624
Apr.	3	"	14	" 625-674
"	10	"	15	" 675-724
"	17	"	16	" 725-774
"	24	"	17	" 775-824
May	1	"	18	" 825-874
"	8	"	19	" 875-922
"	15	"	20	" 923-970
"	22	"	21	" 971-1018
"	29	"	22	" 1019-1066
June	5	"	23	" 1067-1114
"	12	"	24	" 1115-1162
"	19	"	25	" 1163-1212

—New water-proof propeller coating..... 855
—Production airplanes in England..... 890

"Alive" ball-bearing centers, Kell, Hock. ‡*369, ‡*474a
Allen plier wrenches .....‡*961, ‡*1114a
Alloy steel, Heat-treatment of. Juthe.....*1077
Alternating current welding apparatus, Arcwell .....‡*765, ‡*922a
Altitude adjustment device for airplanes invented 890
Aluminum, Use of solders for. Bureau of Standards 802
American Brake Shoe & Foundry Co.—Manufacturing the 9.2-in. howitzer shell—I, Hand *799, *833, II *895, III.....*1089
American engineering professions, Reasons for consolidating. Flinn..... 159
American Gage Co., Double-end detachable plug gage.....‡*962, ‡*1114a
American Gear Manufacturers' Association, Aims of. Sinram..... 885
American industry, Stabilizing effect of a definite foreign-trade policy. Hook..... 938
American Machine Co., "Ellison" drill chuck .....‡*963, ‡*1114a
American Mach. Tool Eng. Wks., "Hack" high-power universal relieving machine ‡*766, ‡*922c
American Machine Tool Eng. Wks., "Hack" one-piece adjustable reamers and taps ‡*718, ‡*922a
American machine tool, Markets for. Schmidt 75
American machine tools in many markets. Alwyn-Schmidt 1135
American machinery in Australia..... 945
American Pneumatic Chuck Co., American parallel-grip master-hinge collet chucks. Nendow .....‡*867, ‡*—1018a
American pneumatic chucks.....‡*1158
American Standard Gauge Corp., Portable thread-grinding attachment .....‡*92a
American Thread Grinding Machine Co., thread grinding machine.....‡*463, ‡*574a
American Tool Wks.—radial drilling machines .....‡*915, ‡*1066a
Ammunition. See also "War Topics."
Ammunition, Modern artillery. Brayton....*707
Ancient rustless iron..... 496
Anderson Bros. Mfg. Co., pneumatic scraping machine .....‡*666, ‡*824a
Anderson Die Machine Co., bench type die-forming machine .....‡*516, ‡674a
Angle fixture, universal, Nelson..‡*1062, ‡*1212a
Angle pattern, Kink for making. Duggan.. *80
Angles, Chart of. Hodgkinson.....*125
Angles on the triangle, Extra. Kipps.....*506
Angles, Tangent gage for measuring. Clark *1250
Angular dividing in degrees and minutes. Brunner 545
Angular plug-gage making. Puset.....*635
Announcing a new member of the McGraw-Hill family 42
Annunciator applied to group machine-tool operation, Electric. Des Angelis.....*905
Annual meeting of Society of Automotive Engineers 321
Another gage joke. Follen..... 270
Anti-aircraft guns, Making sights for. Colvin *681
Anvil, Bending die with movable. Chidsey.*402
Applications for electroplating..... 268
Appraisal chart to determine service value of standard machine tools.....1202
Apprentice toolmakers' school, Successful—Savage Arms Corporation..... 347
Approximating tap-drill size. Watson..... 51
Arbor. See also "Mandrel."
Arbor, Holding a slitting saw on the. Walker *1195
Arc welding. See "Welding and Cutting."
Arc-welding outfit, "Zeno".....‡*1106, ‡*1262a
Arc-welding outfits, USL electric.....‡*1255
Arc welds, Inspection of metallic electrode—Westinghouse Electric & Mfg. Co. Escholz *215
Arcwell Corp., welding apparatus for alternating current.....‡*765, ‡*922a
Arms and hands, Mechanical. Lucas *546, *605, *650, *748, *792
Armstrong, Whitworth & Co.—Long, built-up broach *33
Army. See also "War Topics."
Army, U. S., ordnance news. *269, 310, *357, *459, *509, *557, *607, *657, *707, *739, *799, *833, *895, *947, *997, *1041, *1089, *1127, *1188.
Army's foreign stock of machinery. Woods.*775
Arnold "Economy" milling cutters with brazed-in cutters .....‡*1256
Arnold Electric Tool Co. Electric drills. ‡*715, ‡*874a
Arrangement of equipment in shops. Forrest 699
Arrow Tool Co., thread lead testing device. ‡*517, ‡*674a
Arrow Tool Co., thread tool acessories. ‡*465, ‡*624a
Arsenal, Neck Island, Expansion of..... 268
Articles, Use of defective. Sherlock..... 701
Artillery ammunition, Modern. Brayton..*707
Ash, Sifting out bone. O'Shea.....*1049
Assembling, Remarkable feat of engine. Sun Shipbuilding Co. *291
Association, Aims of American Gear Manufacturers'. Sinram 885
Association convenes at Atlantic City, National Machine Tool Builders.....*1004
Associations, Convention of drop-forge.....1247

War-time repairs in the navy—v. *383, VI 433
Starrett Co., L. S.:
Starrett book for machinists' apprentices †674
Starret data book for machinists. Vol. II †724
Stein, Edward A.:
Accurately spaced drilled holes..... 256
Steinmetz, Charles P.:
Industrial coöperation 893
Stiles, A. M.:
Re-boring a Corliss valve-bonnet.....*951
Suiter, Arthur W.:
Hand versus power feeds in surface grinding 356
Sundell, Joel:
Cutting stub-tooth gears with a standard involute cutter 649
Using the compound rest for accurate tool setting 1080
Suverkrop, E. A.:
Copper-pipe smithing in Sun shipyard....*205
Manufacture of measuring wires.....*1251
Manufacture of semi-steel shells *1041
Swanson, Albion:
Handy offset boring head *400

T

Tead, Ordway:
Instincts in industry..... †92
Teckeer, John:
Die for forming small blanks.....*221
Handy adjusting clamp *261
Making 25 5-in. sine bars.....*449
Simple design of sine bar *260
Thanton, E. A.:
Cam rails used in planing howitzer jackets *230
Generating racks in a shaping machine..*554
One-man crucible truck *604
Splitting collets with a power hacksaw..*532
Thomas, J.:
How we saved the truck wheels..... 54
Thompson, Gyford G.:
Time-study man or rate-setter 939
Thompson, R. C.:
Cutting a four-spline gear without special tools *127
Thwing, L. L.:
Those opulent munition workers..... 388
Tismer, P. G.:
Keying a hub against endwise pressure..*994
Trbojevich, Nikola:
Sizing and hobbing a gear in one operation *260
Tukey, Harry H.:
Making a job of training labor.....*829
Twyford, H. B.:
Storing: Its economic aspects and proper methods .....†187

Tyson, B. A.:
Scaling reduced drawings *996

V

Van Bibber, P. T.:
Electric seam welding.....*575
Electric welding of high-speed steel and stellite in tool manufacture.....*425
Van Deventer, J. H.:
Creed for machine-shop foremen..... 128
Great Britain's import restrictions..... 274
Liberty lathe *1115
New Cincinnati No. 5 high-power milling machine *971
Solution of the war tool problem..... 175
We're agin that gink..... *35
Van Keuren, H. L.:
Manufacture of Hoke precision gages..*625
Van Schaick, B. L.:
Tool grinding 448
Varhola, Joseph:
Adjustable radius bar tor planing links.. *32
Vedder, Geo. C.:
American methods in foreign trade.....†473
Ventner, H. J.:
Drilling and tapping jig for large pipe fittings *1050
Machine for grinding in large cocks....*553
Special chuck for large pipe fittings....*550
Tapping fixture for pipe fittings.....*171
Vernon, John:
How would you prevent this grinding trouble? *705
Viall, Ethan:
Modern welding and cutting—I. *243, II. *283, III. *341, IV. *389, V. *479, VI. *529, VII. *641, VIII. *675, IX. *733, X. *833, XI. *879, XII, *877, XIII, *1081, XIV. *1237
Vincent, John H.:
Question of weight 399
Automatic tapping machine for pipe fittings *797
Salvage of high speed tools.....*169
Voelcker, J. J.:
Cheap adjustable die *905
Vogetzer, Otto:
Forming an electrical contact plug.....*601

W

Wade, W. L.:
Flying book—Aviation world's who's who and industrial directory .....†139
Walker, Frank H:
Holding a slitting saw on the arbor....*1195
Watson, E. E.:
"Jim"—Efficiency engineer *1076
Watson, L. S.:
Approximating tap-drill size 51
Webster, Walter H.:
How to prevent oil from discoloring finished surfaces 1176
Weingar, W. H.:
Labor turnover and a remedy.....*497
Wells, F. O.:
Present practice in thread-gage making..*153
Westmayr, Arthur J.:
Crippled workers in the machine industry *81
Wilking, A. P. M.:
Chuck for holding piston rings.....*732
Frame for drying blueprints.....*906
Willey, Charles H.:
Handy wire-splicing tool *33
Use for old tin cans *452
Vise for holding small screws.....*449
Williamson, Leroy R.:
Tapping with a drilling machine..... 528
Wischmeyer, Carl:
Descriptive geometry .....†187
Withey, M. O., and James Aston:
Johnson's materials of construction....†674
Wittstein, H. L.:
Daylight-saving plan *364
Wolfe, A. B.:
Works committees and joint industrial councils .....†724
Woods, John B.:
Army's foreign stock of machinery.....*775
Woolums, H. W.:
Threading die with top rake.....*553
Wright, J.:
Broaching in a punch press.....*754
Cutting round corners on car-journal brasses *554
Direct drive on table of boring mill....*906
Fixtures for turning grooves in trolley wheels *600
Large-sized caliper with turn-buckle adjustment *504

Y

Yoch, A. H.:
Repairing a broken lathe chuck.....*995
Yorks, S. H.:
Laying out intermittent gears.....*1048
Strengthening intermittent gears.....*848

Z

Zeichner, F. H.:
Minimum spacing of hexagon nuts for wrench clearance *403
